EDUCATION

University of Texas at Austin

August 2024-May 2027

Bachelor of Science in Information Technology

- Specializing in Human-Centered Data Science | GPA: 4.0/4.0

Relevant Coursework: Data Structures, Mobile Application Development, Virtual Reality & Game Design, Human-Centered Data Science, Ethical AI, UI/UX Design

Danish Institute for Study Abroad- UT Global Ambassador

August - December 2024

- Hands-on research in Scandinavian health systems; proposed tech-driven care solutions.

EXPERIENCE

Bank of America – Pennington, NJ

Summer 2026

Incoming SWE Intern – Global Technology

Soundscape-to-Image Lab – UT Austin

August 2025- Present

Undergraduate Researcher – Multimodal AI

- Built and debugged Python/PyTorch pipelines for **multimodal data preprocessing** (audio, frames, metadata)
- Ran inference on pretrained audio models to **generate** and **validate** embeddings.
- Prepared curated datasets and training configurations to **support** downstream fine-tuning experiments

NeuralSeek - Remote

August 2025 - September 2025

AI Agent Builder Intern

- Built & deployed a **custom AI agent** on NeuralSeek's low-code platform, creating a portfolio-ready enterprise workflow tool.
- Delivered a **competitive analysis** of generative AI platforms, influencing product roadmap & market positioning.

Depository Trust Clearing Corporation – Jersey City, NJ

May 2025 - August 2025

IT Intern – Internal Audit & Data Analytics

- Automated audit test matrix generation in KNIME/Python, saving **10–15 hours** per audit and **scaling** across recurring workflows.
- Built a KNIME Business Hub app that **centralized** disparate audit processes, streamlining **collaboration** across multiple audit teams.
- Co-designed a custom **ML model** and contributed to AI governance policies, enhancing efficiency and trust in audit outcomes.

Jetson Financial – Remote

May 2023- September 2023

Product & Tech Intern

- Conducted UX research & **usability** testing across multiple product flows, leading to a 20% increase in **user satisfaction**.

ACTIVITIES

Longhorn Developers & UX Design Club- UT Registration Plus: Designer & UX Design Fellow

March 2025 - Present

- Redesigned core UI in Figma, improving course planning efficiency by 20%.

Students for Ethical Use of Technology: Co-founder & Advisory Panel Lead

December 2024 - Present

- Launched application process and advisory panel for student-led ethical tech initiatives.

PROJECTS & ACHIEVEMENTS:

AI-Driven Cardiac Risk Classifier

- Built ML pipelines on 10k+ EHRs, training models that reached 85% prediction accuracy.

SymptomSync – Clinical NLP Triage Assistant

- Built an assistant to extract symptoms & generate clinical guidance, simulating real-world **triage workflows**.

Published: "[Dismantling Algorithmic Prejudice](#)" in Greenhouse Publishing, 2023

- Conducted a theoretical exploration of the complexities of **bias detection, mitigation & fairness** in AI systems. The study gave insights into AI ethics, responsible innovation, & societal impacts, contributing to ongoing discourse on AI equity.

Houston Endowment President's Excellence Scholarship (merit-based, academic award).

NCWIT Aspirations in Computing: National Awardee & Honorable Mention.

Hackathon Wins:

- 1st Place, Best Use of **Cryptocurrency** @ Technica UMD Hackathon
- 1st Place, **Data Visualization** @ South Brunswick Hackathon
- Best Hack for **Social Good** @ Bridgewater Raritan Hacks

SKILLS:

Coding Languages: Python, Java, C++, Kotlin, Swift, SQL, JavaScript, HTML/CSS

Frameworks & Tools: React, Flask, Pytorch, Android Studio, Git, KNIME, Figma

Languages: Fluent: English, Hindi | Basic Proficiency: French, Danish
